- B. GVRA has evidence that the services have been obtained through misrepresentation, fraud, collusion, or criminal conduct on the part of the individual or their authorized representative.

Efforts for informal resolution should take place prior to the individual submitting a formal request for review using the form provided by GVRA, to facilitate timely and efficient resolution of the individual's concerns and appeals, GVRA encourages all parties to seek the resolution of disagreements at the lowest appropriate level and earliest stage possible. Efforts to informally resolve disputes after filing a request will not extend the deadline for an individual to have their matter resolved at a fair hearing unless otherwise agreed to in writing by both the individual and GVRA.
- 136.1.11 At any time during the period between requesting a review and the fair hearing, an individual may request to resolve the matter through mediation with GVRA regarding the dispute by submitting a request to their counselor. Both the individual and GVRA must be in agreement to proceed to mediation.
- 136.1.12 A qualified and impartial mediator will be selected in accordance with the procedures established by the State of Georgia for assigning mediators. - 136.1.13 At any point during mediation, either party or the mediator may elect to terminate the mediation process. If mediation is terminated, the individual may proceed to a hearing or withdraw his/her hearing request.
- 136.1.14 Any discussion that occurs during the mediation process is considered confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding. However, this confidentiality does not apply to any mediation agreement resulting from the mediation and executed by both parties.
- 136.1.15 If efforts to informally resolve a dispute are not successful, an individual dissatisfied with a determination made by GVRA may submit a request for the matter to be heard through an administrative review. Upon receipt of a

Authority: 34 CFR § 361.42(e)

212.1.00 POLICY:

212.1.01 Prior to any determination that an individual with a disability is unable to benefit from vocational rehabilitation services in terms of an employment outcome because of the severity of that individual's disability or that the individual is ineligible for vocational rehabilitation services, GVRA must conduct an exploration of the individual's abilities, capabilities, and capacity to perform in realistic work situations through trial work experience.

212.1.02 A written trial work experience plan must be developed to assess periodically the individual's abilities, capabilities, and capacity to perform in competitive integrated work situations through trial work experiences, which must be provided in competitive integrated settings to the maximum extent possible, consistent with the informed choice and rehabilitation needs of the individual.

212.1.03 A trial work experience must:

- A. Be sufficiently varied and over a sufficient period of time, not to exceed six (6) months, to determine eligibility or ineligibility;
- B. Be approved by the assigned supervisor;
- C. Include appropriate support services including, but not limited to, assistive technology devices and personal assistance services to accommodate the rehabilitation needs of the individual during a trial work experience. Appropriate support services must be funded by vocational rehabilitation at no cost to the individual. Maintenance may be provided as needed; and
- D. At a minimum, be reviewed with the individual after completion of each trial work experience to evaluate the individual's capacity to perform the work.

212.1.04 An individual is determined eligible after a trial work experience when there is sufficient evidence to conclude that the individual can benefit from the provision of vocational rehabilitation services in terms of an employment outcome.

212.1.05 An individual is determined ineligible after a trial work experience when there is clear and convincing evidence that, due to the severity of the individual's disability, the individual is incapable of benefitting from the provision of vocational rehabilitation services in terms of an employment outcome.

214.0.00 DETERMINATION OF ELIGIBILITY

Effective Date: October 1, 1999

Revised Date: July 1, 2023

Authority: 34 CFR §§ 361.41, 361.42; 29 U.S.C. § 705(2)

214.1.00 POLICY:

214.1.01 The basic eligibility criteria are:

- A. A determination by GVRA that the applicant has a physical or mental impairment;
- B. A determination by GVRA that the individual's physical or mental impairment constitutes or results in a substantial impediment to employment for the individual; and
- C. A determination by GVRA that the individual requires vocational rehabilitation services to prepare for, secure, retain, advance in or regain employment that is consistent with the individual's unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. For the purpose of an assessment for determining eligibility and vocational rehabilitation needs under this part, an individual is presumed to have a goal of an employment outcome.

214.1.02 It is presumed that an individual who meets the eligibility criteria above can benefit from vocational rehabilitation services in terms of a competitive integrated employment outcome.

214.1.03 An eligibility determination must be made within sixty (60) days of the date of application unless exceptional and unforeseen circumstances beyond the control of GVRA preclude making an eligibility determination within that timeframe and the individual and GVRA agree to a specific extension of time as documented and justified in the case file.

214.1.04 Sources of information that may be used to substantiate a physical or mental impairment and related limitation caused by the impairment include:

- A. Existing records from qualified facilities or practitioners familiar with diagnosing or treating the impairment(s) in question, especially

practitioners or facilities that are currently treating the applicant. This would include records from qualified medical personnel, mental health or developmental disability programs, substance abuse treatment clinics, and individually licensed practitioners operating within their legal scopes of practice.

- B. Special Education records, including an Individualized Education Plan (IEP) which identifies the impairment.
- C. Veteran's Administration disability benefits records that identify the disability.
- D. Counselor observation of a readily visible anatomical impairment such as amputation, deformity, or muscle wasting associated with paralysis.
- E. Verification of current eligibility for Social Security Disability Insurance (SSDI), Supplemental Security Income (SSI)

214.1.05 If it is determined that existing information does not describe the current functioning of the applicant or are unavailable, insufficient, or inappropriate to make an eligibility determination, diagnostic assessments and/or evaluations may be obtained to determine whether an applicant meets the basic eligibility criteria.

214.1.06 An applicant determined to be eligible through verification of SSI or SSDI shall:

- A. Be considered to be an individual with a significant disability;
- B. Be presumed to be eligible for vocational rehabilitation services provided that the individual intends to achieve a competitive integrated employment outcome; and
- C. Receive benefits planning.

214.1.07 A determination of eligibility for vocational rehabilitation services shall be made by a qualified individual employed by GVRA and the determination shall be documented in the case file.

- 216.1.01 When it has been determined by GVRA that an individual does not meet one of the basic eligibility criteria, GVRA shall certify in writing, and supplement through individual's preferred mode of communication, that the individual is not eligible for vocational rehabilitation services from GVRA by issuing a Determination of Ineligibility.
- 216.1.02 An ineligibility decision based on the severity of an individual's disability shall only be made after it has been demonstrated that the individual is incapable of benefiting from services in terms of a competitive integrated employment outcome through the exploration of the individual's abilities, capabilities, and capacity to perform in trial work experiences. The decision shall be based on the results of trial work experiences.
- 216.1.03 The reason and justification for the ineligibility decision shall be consistent with GVRA policy and case file documentation.
- 216.1.04 An individual whose case is closed for a reason of ineligibility due to inability to benefit from services shall be provided with a description of services available from the Client Assistance Program and with information on how to contact that program. The individual must provide a copy of their Student Aid Report (SAR), an award letter, and a copy of their student account detail report from the institution for the current and, where applicable, the previous semester/quarter, before GVRA shall authorize payment for post- secondary training expenses. These documents must be provided by the individual no later than thirty (30) days prior to the institution's due date for payment of tuition and fees for

the semester/quarter or no later than five (5) days after the information is made available by the institution(s). Failure to submit the required documentation by the due dates may result in non-payment by GVRA or a late payment. Any late fees associated with a individual's failure to submit required documentation by the due date shall be the responsibility of the individual. An exception may be granted by the supervisor when case documentation clearly reflects that the individual has not been able to provide all required documentation due to institutional delays (FAFSA or PST institutions), and the individual will be adversely affected if the authorization is not created prior to receiving all the documentation. In such cases, authorizations should not exceed twelve (12) credit hours.

- 446.1.05 If an individual is in default on a federal school loan, the individual must repay the loan, arrange a repayment plan, or obtain an approved deferral prior to the authorization of vocational rehabilitation post-secondary and academic training services.

- 446.1.9 GVRA shall authorize and make payment for only those courses and electives outlined in an approved curriculum for a specific certification,

One probationary semester or quarter may be authorized to allow the individual to raise their grade point average. If the time sponsored by GVRA in post-secondary training extends beyond the expected date of successful completion as defined by the curriculum, one additional semester/quarter may be authorized with supervisor approval and documentation in the case file.

446.1.16 For all post-secondary school cases, an annual in-depth review is required to assess the individual's training results and to determine if the individual is making adequate progress towards the established employment goal. Satisfactory progress shall not be occurring for those individuals who continuously attend training on less than a full time basis. Effective Date: October 1, 1999
Revised Date: July 1, 2020

498.1.00 POLICY:

498.1.01 The counselor may authorize a qualified individual to receive modification(s) or assistive work technology device(s), or both, as needed on a vehicle when the vehicle modification(s) is necessary to achieve the individual's employment goal. The counselor shall consider the cost effectiveness of the modification(s), i.e., the individual's projected job earnings and ability to maintain the equipment in the future.

498.1.02 GVRA shall not authorize the purchase of any type of motorized vehicle used on public roadways, or provision of any transportation support or assistance to get to and from the designated place of business or to render services related to the business. Motorized vehicles may include the following: automobile, truck, van, scooter, airplane, boat, other powered vehicle, or trailer that requires title and/or licensing by the state.

498.1.03 Prior to the decision to approve a vehicle modification(s), the counselor shall determine that the following criteria are met:

- A. There is no other means of transportation (A vehicle modification(s) cannot be authorized if the individual can use public transportation effectively);
- B. The individual shall have the means to maintain the vehicle and the modification(s), which includes automobile insurance on both the vehicle and modification(s); and
- C. The vehicle modification(s) is necessary to support the individual's participation in their rehabilitation service at the time the modification(s) is purchased. (Example: on campus housing should be considered prior to the authorization of a vehicle modification(s) if it is proposed in order to support attending school, particularly for those who are new students or who are taking remedial classes.)

498.1.04 Prior to the driver evaluation, the counselor shall engage an Assistive Work Technology (AWT) rehabilitation engineer to conduct a preliminary

assessment of the individual's readiness to drive independently, or to be transported as a passenger-only. The counselor and AWT rehabilitation engineer shall consider whether the individual has reached their maximum medical improvement and can benefit from recommended vehicle modification(s) long term. The individual shall provide the counselor a copy of their valid Georgia driver's license or learner's permit and driving history report (MVR) from the Department of Driver Services (DDS) to be used as a part of the AWT preliminary assessment of the individual. Staff should also consult with the AWT rehabilitation engineer to determine the appropriateness of the vehicle to be considered for modification(s), either for a vehicle already owned or being considered for purchase.

- 498.1.05
- If the results of the preliminary assessment and Financial Consideration for Vehicle Modification Worksheet support securing a driver evaluation, the counselor shall include in the Individualized Plan for Employment (IPE) the need for driver evaluation and shall engage the AWT rehabilitation engineer to secure this evaluation from a certified driver rehabilitation specialist (CDRS) and a licensed occupational therapist (OT) of an approved driver evaluation vendor. The purpose of this evaluation is to determine the specific type of modification(s) needed, (i.e., which may include adapted driving equipment, or minor or major modification(s)), the practicality of the modification(s) and if the individual can drive the adapted vehicle safely in the environment in which the vehicle will be used.
- A. GVRA shall not accept a driver's evaluation independently obtained by an individual without prior oversight of the counselor and the AWT rehabilitation engineer.
 - B. The recommendations from the licensed OT and CDRS shall include only those modification(s) that are essential for the individual to drive safely or to be transported safely.
 - C. The counselor shall determine the need for a van/mini-van modification(s) based on an evaluation by a licensed occupational therapist and CDRS who state that the individual/driver cannot transfer in and out of an automobile independently; or
 - D. If the individual/passenger requests a van/mini-van modification(s) for transportation, with the intent to use another person as the

driver, the AWT rehabilitation engineer and/or the AWT OT shall determine whether the individual/passenger cannot transfer independently in and out of an automobile as in "A" above. A van/mini-van modification(s) for a individual who must use a wheelchair to ride as a passenger-only may be authorized in this situation.

498.1.06 The title to the vehicle to be modified shall be in the individual's name or that of an immediate family member.

498.1.07 Vehicle modifications are classified as either "minor" or "major". These two types of modifications are defined as:

A. Minor modifications include:

1. The installation of equipment such as hand controls, a car-top carrier, or rear carrier;
2. A van/mini-van modification(s) for a individual using a wheelchair to ride as a passenger-only that does not include structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor, or where the individual cannot transfer to an automobile but can transfer from a wheelchair to a power seat in order to drive safely and does not include structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor.

B. Major modifications include:

1. A van/mini-van modification(s) for a individual using a wheelchair who must drive from the wheelchair that includes structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor; or
2. Any other vehicle adaptation that requires altering the original equipment manufacturer (OEM) vehicle's structure itself.

498.1.10 A full-sized van considered for major modification(s) shall be in good mechanical condition, less than five (5) years old, and with less than 50,000 miles on the odometer. A mini-van considered for major

modification(s) shall be in good mechanical condition, less than three (3) years old, and shall have less than 36,000 miles on the odometer. Any minor modification(s) on an older vehicle, where the adapted equipment can be transferred easily, will require only that the vehicle be in good mechanical (safety) condition; the above limitations in mileage and age shall not apply.

NOTE: GVRA shall not authorize a vehicle modification(s) for an individual who already owns a modified vehicle if that vehicle has passed safety inspections performed by an Automotive Service Excellence (ASE) certified mechanic and a National Mobility Equipment Dealers Association (NMEDA) certified vehicle modifications vendor.

- 498.1.11 A vehicle shall be determined to be in good mechanical condition in an inspection by an ASE certified mechanic. The auto mechanic shall inspect the mechanical and safety components of the vehicle to assure the vehicle is safe to drive. The individual is responsible for making required repairs before the vehicle can be modified. The individual is responsible for maintenance on the vehicle, both before and after GVRA assists in the modification(s).
- 498.1.12 If the driver evaluation supports that a vehicle modification be performed and all above policies have been addressed satisfactorily, the counselor shall include vehicle modification on the IPE and proceed with the service. The counselor shall ensure that all required vehicle modification forms and attachments are signed by the individual and that all required documentation is included in the case file prior to the delivery of the modified vehicle. This includes:
- A. Financial Consideration for Vehicle Modification Worksheet;
 - B. Valid Georgia driver's license or learner's license and driving history report (MVR) from Department of Driver Services (DDS);
 - C. Tools/Equipment Responsibilities form and the Addition to Tools/Equipment Responsibilities for Vehicle Modifications and Adapted Driving Equipment form;
 - D. Vehicle Modification Maintenance Agreement (required only on vehicles equipped with high technology driving equipment).

- 498.1.13 Vehicle modification(s) shall be the property of the state for five (5) years.
- 498.1.14 Each vehicle modification(s) shall have a final inspection to ensure that the equipment operates correctly, and that the individual can use the equipment properly and safely. The final inspection shall be conducted by the AWT rehabilitation engineer, the individual, the CDRS, and, as available, the counselor. Either prior to but no later than at this inspection, the individual shall provide proof of insurance coverage on the vehicle and the adapted driving equipment.
- 498.1.15 At the time the modified vehicle is delivered, the individual shall receive training on the proper use and care of the adapted driving equipment from a CDRS and the vendor who performed the installation of the equipment. The individual shall not drive the vehicle independently until they have obtained a valid driver's license, and are approved and released by the CDRS.
