Message from the Executive Director, Chris Wells

My name is Chris Wells, and it is a pleasure to serve the citizens of Georgia as the fourth executive director of the Georgia Vocational Rehabilitation Agency (GVRA).

It has been years since I taught math to high school students, but my work at the GVRA reminds me of that time because it has given me the opportunity to assist individuals on their journey to grow and gain independence through learning and employment.

At the GVRA, we hope our values of transparency, empowerment, accountability, courteousness, and honesty (TEACH) shine through in everything we do to provide Georgians with the highest quality service.

As executive director of the GVRA, I am responsible for numerous federal and state-funded programs designed to help people with disabilities achieve freedom and equality through fulfilling work. Each year, we serve more than 30,000 Georgians with disabilities who are seeking employment through our vocational rehabilitation (VR) programs. Our VR services may be accessed online and at 30 offices throughout the state.

At each of our VR offices, a team of rehabilitation counselors and support personnel assess the needs of Georgians with disabilities who are pursuing a career. These clients' needs result from a variety of disabilities, ranging from vision and hearing impairments, cognitive difficulties, and ambulatory challenges, as well as self-care and independent living issues.

The agency also oversees an array of programs aimed at helping high school students with disabilities transition into the world of work.

Residential campuses at Roosevelt Warm Springs and Cave Spring offer a unique college-like, wholistic environment to learn and thrive in, with individual attention and customized enrichment.

Our partnerships throughout the state also offer non-residential, school-to-work transition services for students who perform best in a family setting or closer to their support system.

Additionally, we assist clients for whom employment opportunities are significantly limited to obtain appropriate benefits. Under our Disability Adjudication Services program, the GVRA works closely with the Social Security Administration to review and resolve more than 100,000 Social Security claims annually.

Please contact us at 1-844-367-4872 or at this link, [Contact Us | Georgia Vocational Rehabilitation Agency](#), to learn more.

Due Process Frequently Asked Questions (FAQs) for Clients & Individuals Served

1. What can I do if I disagree with a decision made about my case?

If you do not agree with a decision made by GVRA about your case, you have the right to an appeal. You may seek and receive a review of the decision and resolve any disagreement you may have by requesting one or more of the following options:

- Informal Resolution
- Meditation
- Administrative Review
- Fair Hearing

2. When do you have to ask for a review?

You must ask for a review within **15 business days** after the date on the notice from GVRA about their decision.

3. What is the first step if I disagree with a decision made about my case?

“Informal resolution” is the first step to solving a disagreement. It's when you try to talk to your counselor to work things out. Most problems can be fixed by talking directly to your counselor. If you can't resolve the matter with your counselor, you can go to their supervisor or even higher up if needed.

4. What if you can't solve the problem with your counselor in "Informal Resolution"?

If you can't solve the problem with your counselor or their supervisors through Informal Resolution, you can ask for a more formal review, which may include a fair hearing. A written request for a more formal review must be requested within 15 business days of your notice, Informal Resolution does not postpone the deadline to request a formal review, unless agreed to between yourself and your counselor.

5. How can I initiate and request a review?

You may request a review on your own behalf, or if you have selected an authorized representative, they may request a review for you as well.

If you are seeking a formal review, submit a **written request** using the form provided by your counselor. Include your name, address, and phone number, as well as identify the issue(s) you want reviewed and what you think should be done instead. Explain the

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

problem, when it happened, identify the people involved, and describe the action you would like from GVRA.

GVRA asks that a request for review be in writing to ensure the request clearly and accurately reflects your dissatisfaction and includes any supporting documentation you may wish to be reviewed. "In writing" would encompass both handwritten or electronically transmitted documentation requesting a review. Your counselor or authorized representative may assist in putting your request for review in writing.

NOTE: In circumstances where you are unable to make a request for review within the 15-business day period due to mailing issues or lack of additional support, the policy allows for the time period to be extended by mutual agreement between you and your counselor as needed.

6. Can GVRA stop or change your services while you're waiting for a review?

Generally, GVRA cannot stop or change your services while you're waiting for a review as long as you are available for services. However, there are special circumstances in which services can be stopped immediately, such as if you or your representative ask for services to stop or change or if there is proof of misrepresentation, fraud, collusion, or criminal behavior.

7. What is an administrative review, and how can you request one?

An administrative review is a more formal way to review a decision made by GVRA. If informal resolution doesn't work, you can ask for an administrative review. GVRA must issue its decision from the administrative review within 15 business days of an individual's request for a formal review.

8. What happens if you're not happy with the outcome of an administrative review?

If the matter is not resolved following an administrative review, you can ask for a fair hearing within 10 days after you get the decision from the administrative review.

9. What is mediation, and when can you ask for it?

Mediation is when you and GVRA sit down with a neutral person to help you find a solution. You can ask for mediation at any time between requesting a review and a fair hearing if both you and GVRA agree to it.

10. What happens if mediation doesn't work?

If mediation doesn't work, you can still go ahead with a fair hearing or withdraw your hearing request.

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

11. Is what you talk about during mediation private?

Yes, what you talk about during mediation is kept confidential and cannot be used as evidence in a future hearing or court case, except for any agreement both you and GVRA sign.

12. What is a fair hearing, and who decides what happens in it?

A fair hearing is a formal process where an Administrative Law Judge (ALJ) from the Georgia Office of State Administrative Hearings (OSAH) listens to both sides and makes a decision based on the evidence presented. You have the right to be represented by an attorney and present evidence. Once a decision by an ALJ is issued, it is final and will be implemented once made.

13. Can the decision made by the ALJ be changed?

The decision made by the ALJ is final. However, if you don't agree with it, you can request further review by a superior court judge. This request must be made by you or your representative. If the higher court changes the ALJ's decision, your services will be adjusted accordingly.

14. What is the Georgia Client Assistance Program (CAP) and how can it help you?

The Client Assistance Program is an independent organization designed to help individuals navigate the vocational rehabilitation program, as well as help to resolve disagreements related to their VR case. You may reach the Client Assistance Program directly at 800-822-9727 or email at gacapdirector@georgiacap.com. Last Review Date: 01/01/2024	Review Schedule: Annual

1. POLICY

1.1. Prior to providing any GVRA service to an individual, it shall be determined if comparable services and benefits are available, unless such a determination would interrupt or significantly delay:

1.1.1. The progress of the individual toward achieving the employment outcome identified in the Individualized Plan for Employment (IPE);

1.1.2. An immediate job placement; or

1.1.3. The provision of GVRA services to any individual who is determined to be at extreme medical risk, based on medical evidence provided by an appropriate and qualified medical professional.

If comparable services or benefits exist under any other program but are not available at the time needed to ensure the progress of the individual toward achieving the employment outcome specified in the IPE, GVRA must provide GVRA services until those comparable services and benefits become available.

If a comparable benefit for a service is made available to an individual in-state, but the individual chooses not to accept the benefit or chooses to participate in services out of state, GVRA support for that service will be limited to the same level of support GVRA would have provided had the individual accepted the benefit and/or remained in-state.

1.3. Prior to the authorization of funds, the GVRA shall have written documentation in the case file from the program whose comparable services and benefits are being sought that the individual has applied for any comparable services and benefits appropriate to their vocational rehabilitation program. Any comparable services and benefits that are determined available to the individual shall be utilized and so documented in the case file. All applicable comparable benefits for which the individual has been approved must be subtracted from the total cost of services prior to providing GVRA's

- 1.4. The following services do not require that the individual apply for comparable services and benefits:

Last Review Date: 01/01/2024	Review Schedule: Annual

1. POLICY

- 1.1. An individual, or their authorized representative, who is dissatisfied with any determination made by GVRA concerning the provision or denial of VR services may request a review of such determination.

Such review may be conducted through:

- 1.1.1. Informal Resolution
 - 1.1.2. Mediation;
 - 1.1.3. Administrative review; or
 - 1.1.4. Fair Hearing
- 1.2. A request for review of a determination by GVRA must be made by an individual to their counselor in a form provided by GVRA or in the individual's preferred method of communication within fifteen (15) business days of the date of the written notice of the determination, unless otherwise extended by mutual written agreement between GVRA and the individual requesting review. Prior to submitting a formal request for review using the form provided, the individual should first seek to resolve their dissatisfaction directly with their counselor.
- 1.3. The individual must include the following in their request for review:
- 1.3.1. The name, address, and telephone number of the individual (and the individual representative if one is designated), and
 - 1.3.2. A concise statement about the determination made by the VR staff for which the individual is dissatisfied and a proposed remedy sought by the individual

 - 1.5.4.** Whenever VR services for an individual are reduced, suspended, or terminated.
- 1.6.** GVRA cannot suspend, reduce, or terminate VR services being provided to an individual until an impartial hearing officer issues a final determination on the individual's appeal. Services must continue during the pendency of the appeal include those being provided for evaluation and assessment of the individual, for the development of an IPE, and as planned under an existing IPE. As long as the individual remains available, these services will continue until the final resolution of the issue has been reached, unless:
- 1.6.1.** The individual or their authorized representative requests that services under dispute be suspended, reduced, or terminated; or
 - 1.6.2.** GVRA has evidence that the services have been obtained through misrepresentation, fraud, collusion, or criminal conduct on the part of the individual or their authorized representative.
- 1.7.** The first step in resolving disputes should be an attempt to achieve informal resolution of the matter between the individual and their counselor. Efforts for informal resolution should take place prior to the individual submitting a formal request for review using the form provided by GVRA, to facilitate timely and efficient resolution of the individual's concerns and appeals, GVRA encourages all parties to seek the resolution of disagreements at the lowest appropriate level and earliest stage possible. Most disputed issues can be quickly resolved through direct, verbal communication between the individual and their counselor.

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

- 1.8.** If an individual feels that they are unable to resolve a dispute over the provision of services directly with their counselor, the issue may be escalated to the counselor's supervisor for additional discussion. If no resolution occurs, the issue may be further escalated up the chain of command to the District Manager.
- 1.9.** At any point, including if the individual determines that no resolution may be reached through informal discussions, the individual may exercise his/her right for more formal review, including an administrative review, mediation, or review at a fair hearing.
- 1.10.** Informal resolution efforts may occur prior to or after the filing of a request for more formal review. Efforts to informally resolve disputes after filing a request will not extend the deadline for an individual to have their matter resolved at a fair hearing unless otherwise agreed to in writing by both the individual and GVRA.
- 1.11.** At any time during the period between requesting a review and the fair hearing, an individual may request to resolve the matter through mediation with GVRA regarding the dispute by submitting a request to their counselor. Both the individual and GVRA must be in agreement to proceed to mediation.
- 1.12.** A qualified and impartial mediator will be selected in accordance with the procedures established by the State of Georgia for assigning mediators. Employment: Self-Employment	
Division: Vocational Rehabilitation: Services	
Policy Number: 8.5.5	Effective Date: 10/01/1999
Last Review Date: 01/01/2024	Review Schedule: Annual

1. POLICY

- 1.1. Self-employment is a viable business venture initiated and operated by the individual where that individual performs, supervises, or sub-contracts the product or service to be produced. The business must be wholly owned by the individual. Self-employment shall be consistent with the consumer's strengths, resources, priorities, concerns, abilities, capabilities, and interests.
- 1.2. GVRA may authorize a supply of expendable stock(s) and/or supplies, including tools and equipment, which are necessary to the attainment of the self-employment business. All authorizations shall be appropriate and reasonable.
- 1.3. Initial stocks and supplies include those items necessary to the establishment of the new business enterprise during the initial establishment period, which may not extend beyond six months. No authorization for any operation costs of the business shall extend beyond six months. Completion of projected start-up expenses and budget for the initial six months of operation shall be made before expenditures on the business are made.
- 1.4. The following services may be provided, if required, but are not included in the cost of allowable start-up business expenses:
 - 1.4.1. Training;
 - 1.4.2. Business plan development;
 - 1.4.3. Adaptive technology/equipment;
 - 1.4.4. Disability related modifications.
- 1.5. A self-employment business approved for support by GVRA must be a viable business and expected to make a profit and contribute significantly to the individual's household income. The anticipated outcome is that the business proceeds will be the primary source of income once the business is established. This expectation shall be assessed and verified prior to approval of the provision of self-employment services.

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

- 1.6.** A Self-Employment Review Team, consisting of 3 to 5 members appointed by GVRA Leadership, shall provide consultation to the counselor regarding potential self-employment cases, assessment of individuals, and an objective and final review of the business plan with recommendations to the counselor. A Release of Information form shall be obtained from the individual prior to discussions with selected supports outside of GVRA.
- 1.7.** GVRA may support two levels of self-employment businesses, one level with support up to \$3000 and the second level with support over \$3000 and up to \$10,000. GVRA Leadership may approve expenditures considered as appropriate and reasonable beyond either of the established levels.
- 1.8.** For businesses requiring up to \$3,000 in support, a brief business plan shall be completed by the individual for review by GVRA staff and, when appropriate, the Self-Employment Review Team. Normally an individual will already have necessary work skills for the business and may require short term training in areas such as bookkeeping and tax requirements.
- 1.9.** For businesses requiring over \$3,000 and up to \$10,000 in support, a full business plan shall be completed by the individual for review by GVRA staff. The individual will be required to work with an approved provider while developing the business plan, and a formal critique of their plan by the provider must be submitted to GVRA. In addition, the individual shall present their business proposal to the Self-Employment Review Team. These businesses often require funding in addition to GVRA support and the individual's contribution. These individuals require business management skills in addition to skills required to perform business tasks.
- 1.10.** The individual shall be responsible for contributing a minimum of 25% of the start-up cost of the business. This contribution shall be either in-kind or financial through provision of actual funding. Examples of in-kind contributions include the individual's providing utilities and property for the business or equipment they already own. Funding contributions may be obtained through a variety of resources including the individual's assets, family contributions, grants or loans. Resources that are specific to individuals with disabilities such as PASS Plans and Credit Able, may also be available.
- 1.11.** Self-Employment services may be authorized only to GVRA approved providers based on approved GVRA fees. An agreement between the GVRA Program and the provider shall be in place prior to the initiation of any services.
- 1.12.** Self-Employment Comprehensive Needs Assessment

The counselor shall utilize an assessment process to assist in determining if self-employment is an appropriate job match as well as to look at the individual's needs, strengths, related factors, and proposed services. This process shall include:

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

- Phase II consists of the individual's completion of information on the feasibility of their business, as well as monthly personal and living expenses. They consist of the following:
 - Business Feasibility Worksheet: The purpose of this worksheet is for the individual to provide and clarify business plan details to the GVRA counselor and/or Self Employment Review Team. The 25% individual contribution shall be identified at this time; and
 - Monthly Personal and Living Expenses Worksheet: The purpose of this worksheet is to determine how much income the individual must have in order to pay their routine personal and living expenses.

1.12.2. Consideration of the following:

- 1.15.3. Provider feedback and Business Critique; and
- 1.15.4. Regional Self-Employment Review Team recommendations.

1.16. Required Steps Following Self-Employment Approval

- 1.16.1. The individual obtains a business license and/or permits as required to operate the business. GVRA may authorize the purchase of an initial business license but not renewals; and

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

of the property availability or lease agreement in the individual's name only. GVRA shall not authorize the deposit, lease, or purchase of any building; and

- 1.16.3.** Any physical modifications to the business property, as recommended by AWT staff, are only those required to make the property accessible to the individual. If the individual does not own the property, written permission must be obtained from the owner of the property prior to modifying the property. This permission shall be placed in the case file.
- 1.16.4.** If the individual is approved for self-employment, the following shall be considered when developing the IPE:
- Self-employment is not an employment goal itself, but a method of achieving competitive integrated employment. The IPE may contain several phases, depending on the needs of the individual;
 - An IPE or IPE Amendment with self-employment as a means to achieve employment may be written only after a Business Plan is approved by the counselor;
 - The IPE or IPE Amendment including self-employment should encompass a plan to provide the supports, technical assistance and resources necessary to launch, develop, and/or sustain the business;
 - The IPE or Plan Amendment must include a clear statement of the role and responsibilities of the individual, and of the nature and extent of GVRA support and participation (timelines, dollar amounts, specific goals and services) as well as the types and amounts of the individual's investment;
 - There must be clear criteria for measuring progress, including monthly reports of business income and expenses; and
 - The employment goal shall be consistent with the approved business plan.
- 1.16.5.** Self-Employment Business Documentation and Case Progress
- Once the business has begun operation, follow-up shall occur for a minimum of ninety (90) days to assess business gains and future stabilization.
 - The case may be placed in Employed status after start-up expenditures have been finalized.

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

- The counselor shall verify monthly business income and business expenses through written reports submitted by the individual. A business profit results when business income exceeds business expenses.

1.16.6. Employment Outcomes

Self-employment outcomes shall be based on a business profit or a salary the individual assigns themselves from the business.

- The case shall be considered successfully rehabilitated after the individual demonstrates their ability to average a business profit or a salary over a period of ninety (90) days.
- There are two options for self-employment case closure:
 - Case may be closed in competitive integrated employment if the individual is averaging a business profit or salary over a ninety (90) day period at a rate equal to or above minimum wage. This is the anticipated outcome to be reached; or
 - Case may be closed in competitive integrated employment if individual is averaging a business profit or salary over a ninety (90) day period at a rate less than minimum wage. In these cases, the counselor shall ensure that the individual's work is progressing satisfactorily and closure is warranted

1.16.7. Disallowed Self-Employment Services

- GVRA shall not provide funding or be involved in assisting an individual's plan for:
 - Businesses that are speculative in nature, such as investments in real estate, etc.

1. POLICY

- 1.1. Post-Employment services are defined as one or more vocational rehabilitation services that are provided subsequent to the achievement of an employment outcome and that are necessary for an individual with a disability to maintain, regain, or advance in employment, consistent with the individual's unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.
- 1.2. Post-Employment services are:
 - 1.2.1. Limited in scope and duration, and
 - 1.2.2. Available to meet rehabilitation needs that do not require a complex and comprehensive provision of services.
- 1.3. Any service(s) which may be authorized in Service through Employed status, except those service(s) related to an acute condition or intercurrent illness, may be authorized in post-employment status. Supportive services are only permissible in conjunction with a primary vocational rehabilitation service(s).
- 1.4. A post-employment service(s) may be authorized or provided only under the same conditions which apply to the provision of any service under an IPE. If an IPE is amended to change the employment goal, services on the amended IPE would not be considered post-employment services regardless of whether the participant is currently employed or not.
- 1.5. When all planned post-employment services identified in the IPE amendment have been completed or the service(s) is being provided by another resource, the individual's case shall be closed.
- 1.6. In the event a post-employment service(s) is initiated, and it becomes apparent the individual is unable to maintain employment, the case shall be closed, or a new rehabilitation effort should be started (i.e., new IPE goal, identification of needs/services, etc.)
- 1.7. If an individual's case has been closed and needs services to maintain a position, the individual should be encouraged to re-apply and staff should work with the individual to expedite the vocational rehabilitation process.

1. POLICY

- 1.1. GVRA may authorize and assist with post-secondary academic or vocational training.
- 1.2. Prior to agreeing to academic training as part of the Individualized Plan for Employment (IPE) and prior to authorizing services in support of post-secondary academic training, the following criteria must be met:
 - 1.2.1. The counselor and individual must agree that the training is necessary for the individual to reach their employment goal; and
 - 1.2.2. There must be evidence that the individual has the ability to complete the training selected. Such evidence may include the Scholastic Aptitude Test (SAT), psychological examination, vocational evaluation, acceptance into college or prior college transcripts.
- 1.3. GVRA may assist with tuition, required school fees, books/supplies and, as appropriate, maintenance (housing and meals) only at any approved state, private, out-of-state post-secondary school, or proprietary school for an approved course of study. Verification that the school is approved must be made prior to any obligation to the individual verbally, in an IPE or through an authorization of funds. GVRA support for approved tuition and fees shall be based on the 2023-2024 Federal Pell Grant amounts established by the U.S. Department of Education and will be reevaluated every three (3) years.
- 1.4. The individual must apply for and present proof of a completed application for any available comparable benefits, including the Free Application for Federal Student Aid (FAFSA). The individual must provide a copy of their Student Aid Report (SAR), an award letter and a copy of their student account detail report from the institution for the current and (where applicable) the previous semester/quarter, before GVRA shall authorize payment for post-secondary training expenses. These documents must be provided by the individual no later than thirty (30) days prior to the institution's due date for payment of tuition and fees for the semester or for the semester/quarter or no later than five (5) days after the information is made available by the institution(s). Failure to submit the required documentation by the due dates may result in non-payment by GVRA or a late payment. Any late fees associated with a individual's failure to submit required documentation by the due date shall be the responsibility of the individual. An exception may be granted by the supervisor when case documentation clearly reflects that the individual has not

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

been able to provide all required documentation due to institutional delays (FAFSA or PST institutions), and the individual will be adversely affected if the authorization is not created prior to receiving all the documentation. In such cases, authorizations should not exceed twelve (12) credit hours.

- 1.5.** If an individual is in default on a federal school loan, the individual must repay the loan, arrange a repayment plan, or obtain an approved deferral prior to the authorization of vocational rehabilitation post-secondary and academic training services.
- 1.6.** All applicable comparable benefits for which the individual has been approved must be applied to the required training expenses prior to the determination of the amount that GVRA will pay. Comparable benefits for training may include, but are not limited to, grants and non-merit scholarships.
- 1.7.** The individual must inform the counselor within ten (10) days of any approval for comparable benefits for school support or if the individual directly receives such funds related to school.
- 1.8.** The individual shall take a full course load, as defined by the institution, unless:
 - 1.8.1.** Medically contraindicated as documented in their case file each semester/quarter by a licensed specialist in the field of the individual's disability;
 - 1.8.2.** The individual does not need a full load to complete their course work; or
 - 1.8.3.** The required courses in the individual's program are not available due to scheduling.
- 1.9.** GVRA shall authorize and make payment for only those courses and electives outlined in an approved curriculum for a specific certification, diploma, or degree from the approved school, and only for courses that lead to the certification, diploma or degree required for the chosen employment goal. The individual must submit a schedule of their classes each semester/quarter prior to GVRA authorization for the following semester/quarter.
- 1.10.** The counselor may authorize and make payment for the taking of any course only once. A supervisor may approve a counselor's request to authorize the repeating of a course by an individual. Such approval may be granted only once for the same course.
- 1.11.** The individual must present a copy of their semester/quarter grades to the GVRA counselor within five (5) days of the school posting of grades.
- 1.12.** The individual must maintain a minimum cumulative 2.0 grade point average, or the minimum cumulative grade point average necessary to maintain good standing with the school and to graduate from their approved course of study required for the

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

employment goal, whichever is greater. One probationary semester or quarter may be authorized to allow the individual to raise their grade point average. If the individual does not achieve the required cumulative grade point average at the end of the probationary period, GVRA shall not resume sponsorship until the individual has reached the required minimum cumulative grade point average.

- 1.13.** GVRA shall authorize or make payment for no more than two (2) probationary semesters/quarters during the entire training program. The counselor may not authorize two probationary semesters/quarters sequentially.
- 1.14.** The individual shall maintain regular contact with their counselor. Any change in the individual's employment goal or training program must be agreed upon, in advance, by the individual and counselor, and must be reflected by an amended IPE. The individual shall not withdraw from any class or the school itself without first contacting and obtaining agreement from the counselor.
- 1.15.** GVRA sponsorship for a freshman pursuing an undergraduate degree (bachelor's degree) shall be limited to five (5) years and for each year thereafter shall be decreased by one (1) year based on the individual's enrollment status (sophomore, junior, senior). If the time sponsored by GVRA in post-secondary training extends beyond the expected date of successful completion as defined by the curriculum, one additional semester/quarter may be authorized with supervisor approval and documentation in the case file.
- 1.16.** For all post-secondary school cases, an annual in-depth review is required to assess the individual's training results and to determine if the individual is making adequate progress towards the established employment goal. Satisfactory progress shall not be occurring for those individuals who continuously attend training on less than a full time basis. If the individual is not progressing satisfactorily in their approved course of study, training shall be suspended, and the counselor and individual shall work together to identify a more appropriate employment goal.
- 1.17.** GVRA may assist with payment for the following ancillary services:

- 1.18. If an individual receives an overpayment during a semester/quarter, the individual must immediately refund GVRA, agree to a payment plan or agree to have future payments adjusted to deduct the overpayment. The individual shall reimburse GVRA when the following circumstances apply:

Vehicle Modification	
Division: Vocational Rehabilitation	
Policy Number: 8.5.52	Effective Date: 10/01/1999
Last Review Date: 01/01/2024	Review Schedule: Annual

1. POLICY

- 1.1. The counselor may authorize a qualified individual to receive modification(s) or assistive work technology device(s), or both, as needed on a vehicle when the vehicle modification(s) is necessary to achieve the individual's employment goal. The counselor shall consider the cost effectiveness of the modification(s), i.e., the individual's projected job earnings and ability to maintain the equipment in the future.
- 1.2. GVRA shall not authorize the purchase of any type of motorized vehicle used on public roadways, or provision of any transportation support or assistance to get to and from the designated place of business or to render services related to the business. Motorized vehicles may include the following: automobile, truck, van, scooter, airplane, boat, other powered vehicle, or trailer that requires title and/or licensing by the state.
- 1.3. Prior to the decision to approve a vehicle modification(s), the counselor shall determine that the following criteria are met:
 - 1.3.1. There is no other means of transportation (A vehicle modification(s) cannot be authorized if the individual can use public transportation effectively);
 - 1.3.2. The individual shall have the means to maintain the vehicle and the modification(s), which includes automobile insurance on both the vehicle and modification(s); and
 - 1.3.3. The vehicle modification(s) is necessary to support the individual's participation in their rehabilitation service at the time the modification(s) is purchased. (Example: on campus housing should be considered prior to the authorization of a vehicle modification(s) if it is proposed in order to support attending school, particularly for those who are new students or who are taking remedial classes.)
- 1.4. Prior to the driver evaluation, the counselor shall engage an Assistive Work Technology (AWT) rehabilitation engineer to conduct a preliminary assessment of the individual's readiness to drive independently, or to be transported as a passenger-only. The counselor and AWT rehabilitation engineer shall consider whether the individual has reached their maximum medical improvement and can benefit from recommended vehicle modification(s) long term. The individual shall provide the counselor a copy of their valid Georgia driver's license or learner's permit

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

and driving history report (MVR) from the Department of Driver Services (DDS) to be used as a part of the AWT preliminary assessment of the individual. Staff should also consult with the AWT rehabilitation engineer to determine the appropriateness of the vehicle to be considered for modification(s), either for a vehicle already owned or being considered for purchase.

- 1.5.** If the results of the preliminary assessment and Financial Consideration for Vehicle Modification Worksheet support securing a driver evaluation, the counselor shall include in the Individualized Plan for Employment (IPE) the need for driver evaluation and shall engage the AWT rehabilitation engineer to secure this evaluation from a certified driver rehabilitation specialist (CDRS) and a licensed occupational therapist (OT) of an approved driver evaluation vendor. The purpose of this evaluation is to determine the specific type of modification(s) needed, (i.e., which may include adapted driving equipment, or minor or major modification(s)), the practicality of the modification(s) and if the individual can drive the adapted vehicle safely in the environment in which the vehicle will be used.
 - 1.5.1.** GVRA shall not accept a driver's evaluation independently obtained by an individual without prior oversight of the counselor and the AWT rehabilitation engineer.
 - 1.5.2.** The recommendations from the licensed OT and CDRS shall include only those modification(s) that are essential for the individual to drive safely or to be transported safely.
 - 1.5.3.** The counselor shall determine the need for a van/mini-van modification(s) based on an evaluation by a licensed occupational therapist and CDRS who state that the individual/driver cannot transfer in and out of an automobile independently; or
 - 1.5.4.** If the individual/passenger requests a van/mini-van modification(s) for transportation, with the intent to use another person as the driver, the AWT rehabilitation engineer and/or the AWT OT shall determine whether the individual/passenger cannot transfer independently in and out of an automobile as in "A" above. A van/mini-van modification(s) for a individual who must use a wheelchair to ride as a passenger-only may be authorized in this situation.
- 1.6.** The title to the vehicle to be modified shall be in the individual's name or that of an immediate family member.
- 1.7.** Vehicle modifications are classified as either "minor" or "major". These two types of modifications are defined as:
 - 1.7.1.** Minor modifications include:

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

- The installation of equipment such as hand controls, a car-top carrier, or rear carrier;
- A van/mini-van modification(s) for a individual using a wheelchair to ride as a passenger-only that does not include structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor, or where the individual cannot transfer to an automobile but can transfer from a wheelchair to a power seat in order to drive safely and does not include structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor.

1.7.2. Major modifications include:

- A van/mini-van modification(s) for a individual using a wheelchair who must drive from the wheelchair that includes structural changes to the van/mini-van, such as raising a roof or lowering a floor or part of a floor; or
- Any other vehicle adaptation that requires altering the original equipment manufacturer (OEM) vehicle's structure itself.

- 1.8.** A full-sized van considered for major modification(s) shall be in good mechanical condition, less than five (5) years old, and with less than 50,000 miles on the odometer. A mini-van considered for major modification(s) shall be in good mechanical condition, less than three (3) years old, and shall have less than 36,000 miles on the odometer. Any minor modification(s) on an older vehicle, where the adapted equipment can be transferred easily, will require only that the vehicle be in good mechanical (safety) condition; the above limitations in mileage and age shall not apply.

NOTE: GVRA shall not authorize a vehicle modification(s) for an individual who already owns a modified vehicle if that vehicle has passed safety inspections performed by an Automotive Service Excellence (ASE) certified mechanic and a National Mobility Equipment Dealers Association (NMEDA) certified vehicle modifications vendor

- 1.9.** A vehicle shall be determined to be in good mechanical condition in an inspection by an ASE certified mechanic. The auto mechanic shall inspect the mechanical and safety components of the vehicle to assure the vehicle is safe to drive. The individual is responsible for making required repairs before the vehicle can be modified. The individual is responsible for maintenance on the vehicle, both before and after GVRA assists in the modification(s).
- 1.10.** If the driver evaluation supports that a vehicle modification be performed and all above policies have been addressed satisfactorily, the counselor shall include vehicle modification on the IPE and proceed with the service. The counselor shall

Georgia Vocational Rehabilitation Agency Client Services Policy Manual

ensure that all required vehicle modification forms and attachments are signed by the individual and that all required documentation is included in the case file prior to the delivery of the modified vehicle. This includes:

- 1.10.1.** Financial Consideration for Vehicle Modification Worksheet;
 - 1.10.2.** Valid Georgia driver’s license or learner’s license and driving history report (MVR) from Department of Driver Services (DDS);
 - 1.10.3.** Tools/Equipment Responsibilities form and the Addition to Tools/Equipment Responsibilities for Vehicle Modifications and Adapted Driving Equipment form;
 - 1.10.4.** Vehicle Modification Maintenance Agreement (required only on vehicles equipped with high technology driving equipment).
- 1.11.** Vehicle modification(s) shall be the property of the state for five (5) years.
- 1.12.** Each vehicle modification(s) shall have a final inspection to ensure that the equipment operates correctly, and that the individual can use the equipment properly and safely. The final inspection shall be conducted by the AWT rehabilitation engineer, the individual, the CDRS, and, as available, the counselor. Either prior to but no later than at this inspection, the individual shall provide proof of insurance coverage on the vehicle and the adapted driving equipment.
- 1.13.** At the time the modified vehicle is delivered, the individual shall receive training on the proper use and care of the adapted driving equipment from a CDRS and the vendor who performed the installation of the equipment. The individual shall not drive the vehicle independently until they have obtained a valid driver’s license, and are approved and released by the CDRS.

1. POLICY

1.1. Notification of Closure: An individual whose case is closed for any reason, except death or no known address, shall be notified, in writing or supplemented as necessary by other appropriate modes of communication consistent with the informed choice of the individual, of the case closure, the type of closure, the reasons for the closure, the right to appeal the closure decision and the process for appeal, including the availability of the Client Assistance Program to assist with an appeal. GVRA shall offer an individual an opportunity for full consultation of the case closure before the closure.

1.2. Closure Prior to Eligibility: An individual's case shall be closed without an eligibility determination when the individual is no longer interested in participating or receiving services through VR and GVRA staff have made a reasonable number of attempts to contact the individual or, if appropriate, the individual's authorized representative to encourage the individual's participation. The individual or individual's representative shall be provided with an opportunity for a full consultation of an ineligibility decision before the individual's case is closed due to ineligibility and shall be offered referral services, if appropriate.

1.2.1 Closure Ineligible Following Trial Work Experience(s)

An individual's case shall be closed following a trial work experience when the individual has been determined to be unable to benefit from GVRA services due to the severity of his or her disability.

1.2.2 Closure Due to Ineligibility

An individual was found to have no disabling condition, no impediment to employment, or did not require VR services to prepare for, secure, retain, advance in, or regain competitive integrated employment.

1.3. Closure After Eligibility Determination: An individual's case shall be closed after eligibility:

1.3.1. Ineligible – No longer eligible

The individual was determined eligible for the VR program; however, the individual was no longer eligible because he or she no longer wished to seek competitive integrated employment or the individual's disability prevented the individual's ability to seek competitive integrated employment.

1.4 Closure Requiring Policy Approval - All Other Reasons

Services were obtained or were attempted to be obtained through misrepresentation, fraud, collusion, or criminal conduct on the part of the applicant/client/or client's representative (individual). In such instances, the case will be closed and services may be terminated immediately if the individual has done one or more of the following:

1. Intentionally provided inaccurate or incomplete information to the VR Program, or
2. Intentionally misused program services, funds, or properties; or
3. Committed criminal conduct, including but not limited to threats against GVRA staff.

Acute conditions are those injuries or acute illnesses of short duration (thirty (30) days or less) occurring during the course of the individual's participation in trial work experience(s) or rehabilitation such as unrelated accidental fractures, acute appendicitis, etc.

ADA “Americans with Disability Act” Accessibility Survey:

An assessment of an employer's physical location by a representative of the Assistive Work Technology team which provides information related to compliance with the ADA.

Adjustment to Disability Services:

Those services needed to assist an individual in adjusting to environmental challenges and/or in developing coping skills and strategies to compensate for new limitations as a result of a disability. It is not treatment of/for the disability (i.e., mental and physical restoration).

Amplified Communication:

Amplified Communication includes aided Pure Tone Average, aided speech audiometry (speech reception), and aided speech discrimination with background noise scores to clarify how the individual's residual hearing and amplification device will function in a work setting.

Applicant:

An individual who submits an application for vocational rehabilitation services.

Appropriate:

Appropriate, as it relates to provision of services, is defined to mean the service is not only desired but is necessary for the individual to reach their employment goal.

Appropriate Modes of Communication:

Specialized aids and supports that enable an individual with a disability to comprehend and respond to information that is being communicated. Appropriate modes of communication include, but are not limited to, the use of interpreters, open and closed-captioned videos, specialized telecommunications services, and audio recordings, brailled and large print materials, materials in electronic formats, augmentative communication devices, graphic presentations, and simple language materials.
