

Georgia Industries for the Blind

What is Georgia Industries for the Blind?

Established by 1937 state legislature, Georgia Industries for the Blind (GIB) is a manufacturing operation with three facilities. Headquartered in Bainbridge, Georgia, GIB employs people who are blind in two other locations across the state: Griffin and Warner Robins. GIB has nearly 100 blind team members and generates its total administrative and operating budgets through the sales of its products and services, receiving zero dollars from state or federal means. It has maintained the highest national safety rating since 2013.

GIB products

Purchase office supplies from our store to support the Georgia Industries for the Blind and the Ability One program. When you buy your office products from the Georgia Industries for the Blind, you help create jobs and provide critically important services for people who are blind.

GIB manufactures various products including classification folders, pillows, safety vests, and more. It also has screen-printing capabilities, a call center and provides warehousing services. Customers can shop at <http://www.buygib.com/>.
